*Borrowed Site* at the derelict fire station is a temporary sculpture constructed in situ by CJ Mahony. In this new commission, the artist responds to the architectural relics of The Old Fire Station by using the fabric of the building as a foundation for the work. Mahony applies everyday building materials in unconventional ways to transform the redundant space. This experimental project offers an alternative view of the site as it awaits future redevelopment.

Curated by Jude Bennett

## Events

Saturday 21 August, The Old Fire Station courtyard

- 12pm Opening reception of the specially commissioned sculpture. All welcome and refreshments provided.
- 2pm An informal talk with CJ Mahony and curator, Jude Bennett, exploring the artistic processes and the installation at The Old Fire Station.
